AppHub User Guide

Overview:
Welcome to Apphub the place for all your application needs. We have applications ranging from Shopping to Livestreaming plus more! All in one place. Plus, we have a developer friendly interface that makes it easy for anyone to upload their own creations.

Features:
Create account page
1. Enter a valid username
2. Enter your password twice to ensure it is correct
3. Account will be created

Log in page
1. Enter a valid username
2. Enter your password correctly
3. You will be logged in

Home page
- You can now browse applications
- Click on an Application name to view details/comments
- Press the home page to get taken back to the home page from a specific application
- Press the logout button to sign out

Application Proposal
1. Click submit proposal
2. Fill in an application name and a description, other fields are optional
3. If you would like to add more developers or other fields select the add more button
4. Submit your application and wait for an administrator to review it before it is added to AppHub

Trouble Shooting:
If the page ever breaks try refreshing or logging out and back in.

If you have trouble submitting an application proposal try to simply your input for fields such as developers.
